

## TRIPLE

Telecommunication by Radio for Internet Provision Locally Everywhere

### PILOT PROJECT FOR INTERNET ACCESS IN AFRICA

## Exhibition and media day on TRIPLE 18 April 2008 (from 14:00)

Centre sportif Jean Moisse, Rue des Hayeffes, 27A, B-1435 Mont-Saint-Guibert

### INVITATION

You are cordially invited to attend this event, at which the initial operation of the TRIPLE system at Mont-Saint-Guibert will be demonstrated, with details and explanations of the system and of the security, traffic management, tele-education, tele-medicine and broadcasting applications already running on the system or planned. Information too will be given on preparations for the continuation of the pilot project at its first African destination – the Kigali suburb of Kicukiro.

Opportunities will exist for members of the press to hold individual briefings with the Bourgemestre of Mont-Saint-Guibert, European Commissioner for development Louis Michel, members of the TRIPLE team and of applications demonstrators, including Group 4 Securicor, Icomm Detections, Vitrociset epb and the University of Louvain.

Please confirm your attendance to [msg@triplenet.eu](mailto:msg@triplenet.eu)

For further information, see [www.triplenet.eu](http://www.triplenet.eu) or call +32 2 374 8189.
